ecash

pospoint™

Secure Stylish Flexible

Introducing pospoint by ecash, a revolutionary payment device designed to interact with customers. Providing an innovative, elegant solution, whilst not compromising on security, quality and compliance.

The stylish, compact pospoint design supports smart cards, and ensures transactional security with PCI PTS 3.x certification. While cash and reject notes are kept secure in separately lockable compartments, in a digital time-lock delay controlled safe.

pospoint is the very latest in integrated cash dispensing payment solutions, specifically designed for venues where access to cash from ATMs is restricted. pospoint continues to meet the demands and requirements of the highly regulated Australian gaming industry landscape.

Key Benefits:
- Multi-layer security on cash
- Digital time-lock delay controlled safe
- Integrated EFTPOS
- Wifi or 3G
- Chip, Magstripe
- PCI PTS 4.x Certified
- Receipt printer
- Cash level monitoring
- Reconciliation of cash payments

pospoint looks elegant and is a modern addition to our venue. The team at ecash walked me through the whole pospoint process, it was so intuitive and easy to use.
